

MATCHBOARD
MDF SOLUTIONS

CUTTING SERVICES

Here at Matchboard not only can we supply full sheets of MDF but also cut to size MDF. Our precision cutting facilities provide a fast and efficient service supplying bespoke sized MDF, whilst also saving you time and money, perfect for any project, commercial and home DIY.

Our easy to use order system allows you to choose from our large range of MDF varieties which include our standard moisture resist, Extreme Tricoya and MFC which we can also edge, and by simply supplying your dimensions, preferred sheet thickness and quantities leave the rest to us. Our skilled machinists will quickly and more importantly accurately cut your order ready for our despatch team to wrap and arrange for your delivery or collection.

Single sheets and volume orders are all possible and you will only pay for the size of MDF you ordered.
