

MATCHBOARD
MDF SOLUTIONS

CNC BESPOKE MACHINING

Matchboard offer a full 3 Axis CNC bespoke machining service.

Our experienced engineers can provide accurate MDF cutting and machining using our range of machines which include a Morbidelli, Biesse and Anderson. With a maximum bed size of 1350 x 4400mm they offer an accurate cutting facility, producing precision CNC cut MDF for volume orders and 'one off's', to a range of industries including but not exhaustive, furniture makers, shop fitters, interior designers, and builders.

We are able to receive your drawings and designs in most formats including: DXF, DWG, IGES and PRT and have vast experience in Solid Works, Alphacam and Aspan. We can also accept PDF's and Illustrator files.

If supplying your own CAD drawings is not possible our CAD technicians would be happy to discuss and create accurate professional drawings from your sketches or update and refine your files where required.
